

Designer: Laura Weil

Creative Designer: Eileen Kim

- I love seeing the menu buttons on the top.
They are very well organized.
- On the homepage, we can keep it simple.
It will be cool to see a sneak preview of the other pages. Just briefly mention the other pages through icons or preview images within four small boxes(?)
I love seeing the images of the old dunkin donuts on the history page
- Work on filling up pages more and play around with fonts.
- Maybe have some fun illustrations or icons? More visual elements
